High Performance "HP" Hand Cleansing Wet Wipes

02 420208

02 420207

Clean Plus® High Performance (abrasive) Hand Cleansing Wipes 02 420207 and 02 420208 offer quick, efficient and convenient hand cleansing. Clean Plus® High Performance wipes are antibacterial and are impregnated with a lipo-protective and hypoallergenic solution. They eliminate oil, grease, ink, fuel and odors from hands leaving them soft and smooth. Ideal for frequent use by professionals in heavy industry, vehicle/machinery maintenance and repair, plumbing, electrical maintenance, etc... as well as in factory offices. Perfect when soap and water are not readily available.
These wipes do not freeze in cold weather conditions.

Clean Plus® Hand Care

Industry, automotive, maintenance, office... Clean Plus® Hand Care offers hand care products for every professional. Traditional granulated soaps, super-cleaning hand wet wipes for people on the move and special creams to protect and restore your skin.

Barrier Creams

02 430107

02 430105

Clean Plus® HP Barrier Cream: 02 430107 is a smooth, fragrance-free, highly efficient protective cream. Apply before hands get dirty. Formulated to give optimum skin protection in the workplace. Clean Plus® Barrier Cream protects the skin against dirt, oil, grease, ink, paint, harmful peroxides (free radicals), etc... Clean Plus® Barrier Cream should be applied to the skin before all work that involves exposure to filth and harmful substances. At the end of the day, just rinse off with soap and water. Perfect to integrate into every daily hand care routine. Contains Aloe Vera.

Clean Plus® Barrier Cream Soft: 02 430105 is a smooth, fragrance-free, "before and after" work cream. Will give protection against oil, grease, ink, paint, harmful peroxides (free radicals), etc... for short working periods. Clean Plus® Barrier Cream contains vitamin E to hydrate the skin and protect against inflammation. Clean Plus® Barrier Cream should be used before short working sessions and always be applied to skin after work to restore the skin's balance. Penetrates rapidly into skin and does not leave hands sticky.

High Performance Hand Soaps

02 430108

02 430201

02 430106

Clean Plus® Biorange®: 02 430108 with pumice is a biodegradable hand cleansing lotion for the removal of tough paints, tar, glue, epoxies, grease, grime, oil, resins, dirt, ink, printer's ink, and brake dust. It is petroleum solvent-free and extremely mild to the skin. Biorange® is free of harmful chemicals, and has a pleasant natural orange scent. Can be used without water while ensuring optimal efficiency.

Clean Plus® Gold: 02 430201 granulated soap is a pleasant hand-cleansing product with PE beads specially designed for heavy industrial usage. Clean Plus® Gold effectively removes industrial grime, oil, grease and other types of dirt from the skin in complete safety. The natural composition of Clean Plus® Gold cleanses without harming the skin. Its special formula is based on natural citrus oil extracts. Contains no petroleum solvents.

Clean Plus® Rouge: 02 430106 is a high performance hand cleansing gel created to provide an economical solution for the cleansing needs of the professional user. Clean Plus® Rouge is granulated and contains a natural compensating agent (almond oil) as well as a bacteriostatic preservative. Effectively removes the most stubborn grime, grease, oil, tar, brake fluid, fresh paint, etc... A very economical hand cleansing solution.

The Sani'Clean® products are extremely versatile as they can be used in a variety of premises such as public toilets, all types of office washrooms, hotels, restaurants, and other public places. The Sani'Clean® line has been carefully selected to provide freshness and pleasant ambience with complete hygiene and cleanliness. The extensive line of Sani'Clean® products is the perfect choice for efficient and safe cleansing operations.

Graffiti Removers

06 460104 06 460109 06 460105

D'Fit® Green Gel: 06 460104 is a highly effective biodegradable formula for the removal of graffiti and paint from factory painted surfaces. It is suitable for use on structures, street signs, lamp posts, phone booths, train carriages, buses, cars, sheet-metal faced buildings, bus stops and stainless steel. May also be used on porous substrates.

For metal surfaces, do not use high pressure but wipe away with a sponge or a clean cloth instead.

D'Fit® Green Wipes: 06 460105 and 06 460109 are impregnated with a highly efficient graffiti remover that easily removes most kinds of marker and felt-tip pen graffiti. D'Fit® Green wipes can be used on industrial painted and other sensitive surfaces.

Do not use D'Fit® Green on Plexiglas, use D'Fit® Yellow.

06 460107	Yellow Liquid	5 L	4 Jerry Cans	32 Cartons

D'Fit® - Anti-Graffiti Products

D'Fit® is the environmentally safe and biodegradable solution to your graffiti problems. D'Fit® offers the liquid and gel for "big" jobs and wet wipes for one step removal on "little" jobs. Whether the graffiti or paint is on smooth, porous or especially sensitive surfaces, D'Fit® will do the job.

D'Fit® is suitable for schools, municipalities, maintenance crews and anyone who needs to remove paint or graffiti from small or large surfaces. Make sure to read the instructions carefully to get optimal results.

Wet Wipes for Glass and Shiny Surfaces

04 460103 04 460108

WinGlass® Wipes: 04 460103 and 04 460108 are impregnated with an advanced formula that gently cleans and lifts off dirt and stains from glass, windshields, Plexiglas, mirrors, chrome, ceramic, stainless steel and other shiny surfaces. After cleaning, let the wipe dry out and it becomes a perfect polishing cloth to polish dry the surface, leaving a crystal-clear streak-free finish. WinGlass® wet wipes make it easy to remove grease and finger marks from any shiny surface with one simple operation.

No more excuses, this product is designed to make it possible to keep any shiny surface clean without any great effort or a professional cleaning team. The large wipes are ideal for large surfaces areas. For small cleanups the smaller wipes are more suitable.
